Theory History and Practice The Threefold Logical Framework of Xi Jinping Thought on Culture

1.School of Marxism 2. Department of Humanities and Social Sciences Shandong University Jinan Shandong 250100

Abstract: As a new chapter of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era Xi Jinping Thought on Culture is a milestone in the history of the development of the Party's propaganda ideological and cultural undertakings. To better understand Xi Jinping Thought on Culture we must adhere to the organic unity of theoretical historical and practical logic. From the perspective of theoretical logic Xi Jinping Thought on Culture not only adheres to the basic tenets of Marxist cultural theory but also inherits the essence of Chinese culture and the beneficial achievements of the world's other cultures. From the perspective of historical logic Xi Jinping Thought on Culture develops in inheritance and innovates in development carrying on the century-old historical evolution of the cultural thought of the Communist Party of China continuing to develop in the practical needs of the prosperity and development of socialist culture with Chinese characteristics and innovating in the dual promotion of ideological views and strategic deployment in the cultural construction of the new era. From the perspective of practical logic Xi Jinping Thought on Culture follows the principle that practice is the purpose and destination of understanding focuses on the primary political task showing the new direction of cultural construction et alia providing a scientific action guide for the construction of a socialist cultural power on the new journey.

Key words: Xi Jinping Thought on Culture Excellent Traditional Chinese Culture Theoretical Logic Historical Logic Practical Logic
