On the Construction of Index System for a Leading Country in Education

1.School of Education 2. The Academy of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era
Education and Research Center of Socialism with Chinese Characteristics Renmin University of China Beijing 100872

Abstract: Since the 18th National Congress of the Communist Party of China President Xi Jinping has attached great importance to Chinese education and has put forward a series of important discourses regarding education. During the fifth plenary session of the 20th Central Committee of the Communist Party of China on May 29 2023 Xi Jinping pointed out the importance of building an educationally strong nation and emphasized the need to accelerate the process of building China into a leading country in education. Building an educationally strong nation serves as a strategic guideline for comprehensively building China into a strong modernized socialist country. Therefore it is imperative to establish a scientific and complete education index system with Chinese characteristics. Based on current situation this article analyzes the new requirements posed by Chinese modernization explores the fundamental ideological content of an educationally strong nation and then based on a comparison with the advanced experiences of international organizational education assessment systems provides recommendations for constructing a new era education index system for an educationally strong nation from five aspects national education lifelong education indicator system high-quality development indicator system education input and guarantee and Chinese characteristics.

Key words: a New Era Leading Country in Education Index System Modernization of Chinese Education High Quality Education System
